### **State Health Department Launches New HIV/AIDS Program Website**

BISMARCK, N.D. – The North Dakota Department of Health HIV/AIDS Program recently launched a new website.

The website includes general information about HIV and information about campaigns and services in North Dakota that address HIV prevention and care and support needs of people living with HIV/AIDS.

“The Internet is a popular form of media that provides us an alternative opportunity to get information about HIV/AIDS in North Dakota to the general public,” said Karin Mongeon, HIV/AIDS Program manager for the Department of Health.

The HIV/AIDS Program website address is [www.ndhiv.com](http://www.ndhiv.com).
